

Safety and Security Committee Annual report

We have seen a decrease in squatters and congregating behind Cornish library over the past year, thanks to more exposed due to construction, patrolling by Bear Clan at times, and residents near the library contacting police when there are concerns. The city had implemented a noise irritant tactic at the Maryland bridge on Wellington side in 2020, but abandoned it after complaints about the tact.

Burnt out lights at the entrances at West and Middle Gate were recently replaced along with finally getting an additional lamp standard installed on the boulevard near 30 West Gate. Multiple calls to 311 were required to get action on both.

Calls to 311 to remove graffiti from entrance gate on West Gate have been made.
